Glossary

What is ZQ wool?

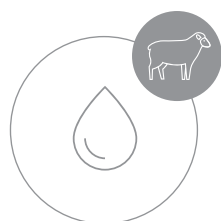

ZQ is the gold standard in wool production, animal welfare and social responsibility.

The ZQ programme governs every stage of the wool production process from the health and welfare of farmers and their families, to the sustainability of farming practices. The '5 basic freedoms' below ensure each ZQ sheep is well cared for and ultimately produces the best quality wool fibre in the world.

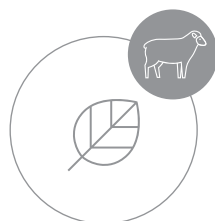

You can be sure that each ZQ Swannndri garment not only performs brilliantly in the elements but has been made using the finest wool fibre available.
